## Rules of Play 1 player EN

Requisites

88x cards 1x stopwatch

The game for 1 player

BlockYou! can also be played by a single player. In this case, the player must make sure he or she has a stopwatch available

Aim of the game

Outplay as many cards as possible within 15 minutes by placing it on the playing field.

The preparation

All cards are faced down, in a pile and placed in front of the player (1).

The stopwatch needs to be set to 15 minutes.

The game

The player starts the stopwatch. The player begins with the creation of the playing field, with a maximum of 4x4 cards placed in a square (2). The player may place all cards as desired.

The player continues this until 15 minutes have elapsed.

Attention! If the player cannot use or has trouble using a card during the game, the player may put down this card faced up. The player may always place it back in the playing field, as soon as an opportunity arises.

The outcome

Once the 15 minutes are up and the stopwatch goes off, the player has to stop playing immediately. The player counts the number of cards that are still covered on the stack and deducts this from 100. In addition, the player also counts the cards, which are still lying faced up (the ones which could not be placed by the player), and multiplies this x 2, and also deducts this from the score.

Example: If the player has 12 cards faced down and 8 cards faced up, then the final score is: 100 - (12 + 16) = 72 points.

The player can improve oneself by achieving a better score the next time.

Attention! If the player succeeds in using all the cards within 15 minutes, then the player notes the time. This time is then the leading score. The player can achieve a faster time for a better score during a next game.
